TENTLEMEN :—In response to the solicitation of of a number of prominent gentlemen residing in the different settlements of your Electoral District to offer myself as a candidate to represent your interests in the House of Coumons, I have, after mature consideration, consented to do so, and have now the heavy to solicit your suffrages at the approaching diction.

the honor to solicit your suffrages at the order of conduction.

The measures that a member of the House of Common may be called on to deal with being different from these of a member of the local legislature, being in their nature more national, it is doubtness expected that I as a candidate should advert to at least some of them that having directly concern your interests. I will say, then, that having been one of the earliest advocates of a Canadian Traincontinental Rainway, I shall, if elected, consider it to be my paramount outy in view of making it a grand national success, to insist that the Terminus shall not Equinical, and that the line shall traverse the entire youth-Eastern Coast of the Island from Johnson Marcife.

Under the Terms of Union with the Dominion, it is the Under the Terms of Union with the Bominion, it is the province of the local legislature, and not of the Dominios Parliament, to decide as to the kind of tariff that the people of Sirtish Columbia deem to be best suited to their varied industrial interests, during the hext ten years. Should, however, the question come before the Dominion Parliament, I shall endeavor to have the tariff so framed as to meet with the concurrence of the agricultural, mining, and commercial interests of your district.

district.

As the Dominion now possesses exclusively the right to manage our postal and telegraphic affairs, I shall endeaver to secure for the Eastern Coast a bi-weekly mail affair of a superior class to the oue now plying on the Coast,—and also better mail facilities in each Settlement; coast, said also better man mentures a sect commercially and as I deem it to be of great importance commercially to have the most rapid means of transmitting intelli-gence between Nanaimo and Victoria, I shall urge on the Federal Government the importance of the early con-struction of a telegraph line to connect the two principal,

The increasing importance of the commerce of the dulf of ticorgia renders it necessary to have more lighthouses. I shall therefore make the most strenuous exertions to induce the Federal dovernment to build a lighthouse at Nanaimo at once, and to creet office elsewhere, as soon as possible, te insure greater metry and certainty in navigating lase dulf.

By the respect to the Indiana, I will urge that they be stilled up Reservations, muser the superintendence of Reservations, under the superintensence of at agents, where they may, with the assist-a two rement, be taught the aris of civiliza-thus have their social, moral, and religious

The Fisher's along our coasts promise to become very probatable, and as the bominion dovernment has agreed to attend its protection and encouragement to that valuable and important branch of homery, I will endeavor to secure for your district its full share of any aid that may be appropriated for that purpose.

Not being able at this time to explain my views at greater length, I will take an early opportunity to meet you personally and collectively in the different settlements, when I may bring under your notice other questions of a Provincial ans leminional character.

In conclusion, bentiemen, if you should do me the heave to return me to the House of Commons as your representative, I pledge myself-to faithfully serve your 'nterests to the best or my ability.

and \$6 others. REPLY.

Gentlemen: Nothing can be more gratify-ing than the henor of having succeeded in gaining the approbation and good will of the people of one the most important constituencies in the country, I have great pleasure in accepting the nomination alluded to in your requisition. The next Legislative Assembly will probably be the most important that has ever met in this colony, and it behoves all good men to be vigilant, and to exert them-selves to insure the successful working of Parliamentary Government.

It may be found well in practice to remember that the misrepresentations of those designing men, who so loudly asserted that you were not qualified to exercise political functions with advantage to yourselves or to the country, have been signally refuted, and that twelve years of misgovernment proves most conclusively, that they were not competent to hold, or exercise, the office of governors with advantage or safety to the community. itical improvement from men in whose official career is not to be found material progress, when not identified with their persona profit or advancement. I confess that when speculating on the causes which led to the disastrous retrogression of the past, I am puzzled to account for the long continuance of a political system, to which is traceable so much unmixed evil—a system containing within itself such active elements of ruin, which when considered in the abstract, might have been expected to put an end to its existence much sooner. Nor indeed is this all. It will be the duty of future legislators, in their post morten examination of the late government to fearlessly probe the complicat-

The amount of maladministration, and the extraordinary nature of official aggrandizement is perfectly astounding. We have seen mere adventurers employed as envoys entrusted with importan s ate secrets -- adverturers who are universal ; execrated, whom the people have never trusted and have long suspected—creatures who are to British Columbians what the hateful the and thus have their social, moral, and rengiods conditions rapidly improved.

The singularly baneful and distinctive nature of these events, is pregnant with reflecting mind numerous and important lessons. The time appears appropriate for turning such lessons to account by improvements at once expedient, practical, and decisive; but they realize only half the danger which these events indicate, who see in then only official usurpation on the one hand, and determined opposition on the other. The lesson which these events teach us is, that gross legislation and extrene tation are inseperably connected that each is the blood relation of the other. Nay more, the danger indicated is to be apprehended by placing great powers in the ands of our governors without being secured by immediate not remote, certain not dubious

That it is not the business of those wh govern to compel public opinion to follow them, but that it is their duty to follow public Spinion, is a canon of my political creed.
Unfortunately the practice of those who have governed this colony, has been, both by precept and example to think differently, but the day is not far distant when the predictions of the advocates of justice and of reason shall be verified,-when the u just and barnarous 150 SHEEP. laws which disfranchise 1 so many intelligen and worthy citizens shall exist only as evi dence of the bigotry, and sordid ignorance of those from whom they emanated, -when Confederation, the promotion of aits and science, the diffusion of useful truth, of education, of civil and religious liberty. I earnestly trust that with the advantages afforded by Confederation and Responsibe Government our popular representatives may so far ignore local issues as to faithfully and permanently reform the bad legislation of the past, and by a comprehensive and liberal policy, inaugurate a new era in our political history and insure the prosperity and happiness of all.

the best of my ability, to carry out your wishes and opinious.

I am not in favor of pensioning the officials, and will advocate the repeal of the Permanent Civil List Act. I will also vote for the repeal of the Qualification and Registration of Voters' Acts, as they are, in my opinion, unjust and unsuited to the people of this colony. I will resist any attempt of monopoly. I am in favor of an enlarged system of education.

In conclusion, I assure you that it will be my duty to advocate economy in every department of the Government, and to suppor that policy best calculated to benefit the colony, that I will act in unison with the liberal and progressive party, whose principle it is to extend the power of the people and to remove those injurious laws, which are so degrading to the community.

Mail Beef-eaters Pay More for their Beef? Now who would have ever thought that our local cotemporary would be in favor of making Victoria beef eaters pay a helf-cent more on a pourd of beef,-or in other words make each man, woman and child in this city pay \$2 more per head per annum than they do now? Yet the thing is perfectly true ; and in yesterday's issue it attempted to elaborate the subject, and make it appear to be just the thing required! Wonderful journal! is it not? Naturally, our readers will like to know how it proposes to produce this admirable result! We will tell them. It is to be done says our cotell them. It is to be done says our contemperary, by extending the Canadian on the good faith of Sir Francis Hincks tariff in its entirety to this country, and and the Cabinet, for which there is no by extending it at once. Here are its foundation whatever. The truth is, own words : "At present beeves pay an Union had been all settled except the import duty of \$3 per bead; cows \$2; Order in Council, long before Sir Francis but no reduction in breeding stock. wrote his report. So there was no Ueder the Canadian tariff animals of all necessity for using the smoothing income kinds pay a duty of ten per cent ad valor- But if the idea be correct that the Cabem, except such animals are imported for the improvement of stock, which are adnitted free." Now mark what follows, Here it is: " Ten per cent ad valorem would be equal to an average duty of \$6 per head on black cattle, -more than double the present rates." Here then is the fact established that instead of paying two dollars on oows and three dollars on beeves into the Dominion Treasury, we will be asked to pay six dollars on each beeve that may be imported. But strange to say, in the face of these very facts, our cotemporary says : "We assume that the Canadian tariff will be extended at once to this part of the Dominple of the Pacific Province will be found so utterly blind to their own true interests, as to unnecessarily and wantonly tax breed and industry to death in the name of pseudo-protection which can never be attained." Was there ever any thing more contradictory ? Our cotemporary says also : "We are sending in VIEUXTEMPS BROTHERS the neighborhood of one hundred thousand dollars a year out of the country for live stock, to supply "the principal market," that is, Victoria. would be \$10,000, and that sum would have to go into the Dominion Treasury Now that sum would be \$5,000 more than is now paid on the above value of imported stock. So putting the population of Victoria at 2,500, our consumers would have to pay \$2 per head more on beef than under the present Free. tariff. Hence it is plain that our cotem porary is "only jumping out of the fry-ing-pan into the fire." Now the real state of feeling, so far as we can gather it King's Head Saloon, TAILOR'S IRONS, among the farmers on this Island and on the Lower Fraser, is this; they only ask for what is fair and reasonable. They don't want to tax any man's beef higher than it is at present. They are contented with the present tariff on stock. Now, that is to the interest of the consumer, and is fair and liberal on the part of the fermers. In the next place, so far as we can gather the opinion up and down the George Edward Smith, Proprietor. East Coast, from Sooke to Comox, the prevailing idea is either to take off the duty on flour or make it much lower. Now that will meet the views of the consumers in town as well as the majority in the country. There are, however, quite a number of influential farmers who would prefer to retain the present duty on flour. But if it comes to a matter of compromise to insure and retain protection on wheat, barley, oats and other farm produce, even they would feel disposed to join in the reduction or repeal of the flour duty, rather than accept the Canadian tariff as it is, and thus be brought unfairly into competition with foreign produce in "the principal market" —of the Province. Such being the prevailing opinion among farmers, there appears consequently to be no disposition to "wantonly tax bread," or raise the duty on beef, no matter how agreeable a higher duty on cattle might be to occa-sional stock raisers. The real and true position then, to harmonize opinion and interests, and secure contentment, is to concede to the farmer such reasonable protection as is afforded under our tariff, and he will join hands with the merchant and consumer in adopting every other provision of the Canadian tariff. The country at large would thus have a modified tariff that would benefit all alike, Wines & Liquors, and neither "wantonly" tax bresd or beef, nor spirits, clothing, dry goods, hardware. or tropical productions. Sir Francis Hincks and the Ottawa Cabinet have told the country that if application be made for such a tariff by the next Assembly, he believed it would be granted. Then apply for it; and don't at-tempt to raise the duty on beef, but let

O Mesers. Nathan and Helmcken are trying to deceive the electors in town and country. Mr. Nathan is put forward to canvass the electors, -and if possible get all the pledges he can. As soon as that shall have been done, then Mr. Helmcken GROCERIES, Consisting of :- Sugars is to be trotted out. The unpopularity of the Father of the Civil List Act being too great at present to take the field at the head of the Obstructive column Now, as the electors are warned, let them put on the armor for the fight. Let the town electors avoid pledging for Mr. Nathan, or signing any requisition for him or anybody else. Let us have no trickery about this matter, by getting pledges in any such way. Let the farmers in the district reserve their entire vote. Let them promise neither Mr. Nathan nor Mr. Helmcken. If they do, they will learn shortly after that they have been deceived.

Sir P. Hincks on our Tariff. Our readers will recollect the report of Sir F. Hincks in favor of a modified BY A'RESPECTABLE YOUNG WOMAN tariff for this country. It was endersed good references if required.

A situation as Housemaid or General Servant good references if required.

aul 2 lm Address 'AM. R." STANDARD OFFICE. by the Cabinet; but our local cotemporary has some end to gain, so it misrepresents Sir Francis in the following strain :

"Now it is to be observed that the mere individual opinion of a single mem-ber of the Dominion Cabinet, could certainly not be considered as in any way committing that Cabinet, or any member thereof, upon that point."

Recollect this was said in the very face of the endorsation by the Cabinet ! But read the next few sentences. Here they are :

"The circumstances under which that opinion was expressed should also be kept carefully in view. Union was still pending, and the diplomatic expression of such an opinion might smooth the way, whilst it in no way compromised the

Government." Now what is this but casting discredit inet would attempt to play fast and lose with this country on the tariff, pray what confidence can we have in other promises of the Dominion Government. Our readers, we hope, will banish such an unworthy suspicion from their minds, and hold that the Cabinet will keep faith with the country on the tariff question

CI INTLEMENT - Having been requested by a number of the electors, to allow myself to be nominated as one of your representatives in the Legislature for the Province of British Columbia, after due consideration, I have much pleasure in acceding to that request, and should you deem me worthy of that honor, shall if elected, at all times make it any study to support such measures as will promote your interests and those of the country at large.

1 am in favor of increased postal communicatation and a liberal non-sectarian school system; the abolition of road toils; improving and making of trails and wagon roads in agricultural and mining districts; increased facilities for the pre-emption of land. I would oppose the permanent Civiliats Bill and all extravagant expenditure of public money.

I have at present merely touched on those subjects that occupy the first place in the public mind, but shall be happy at any future time to hear your views and express my own more fully.

I have the honor to be, gentlemen, your obedient ervant, GEORGE COXON.

Omineca News.

We publish the following letter of a corres pondent of the Cariboo Sentinel, dated Germansen creek, July 17th, confirmatory of the discovery of the new creeks, with other intelligence:

Very little mining has been done on Germansen creek since my last report, but the water is falling fast, so that most of the companies will be starting shortly to put in their wing-dams, and then look out for lively re-

The creek claims on Germansen creek were aid over to July 3rd. The Davis co. are now working in the mouth of Black Jack Gulch, and are averaging \$50 per day to the interest.

Several new creeks have been discovered lying to the east of Germansen creek, and good prospects obtained. The first-Mansen reek-discovered by R. Howell, gave an impetus to the miners to run the mountains, and led to the discovery of two others, viz : "Ille Jose," by A. Smith (commonly known as Black Jack), and "Lost Creek," by James Carson, H. Guest and J. Griffith, who were lost when going to the Mansen creek excitement, and accidently stumbled on Lost creek, from which they panned out \$12.

There are at present a great many miners out prospecting, so that we may expect to hear of many more new strikes.

A Principle at Stake.

We have seen nothing better on a subject which has been much discussed lately than Clocks, Pictures, Japanware, the following from Henry Ward Beecher in

the Christian Union : The Orange societies should parade next year without a banner less or an inscription rubbed out. They should not do it on an implied promise that, if protected once, they will then do it so more. They ought to move through the streets of New York until nobody thinks of molesting them. When that time comes it will be a matter of no public importance whether the annual procession is kept or not; but so long as a dog wags his to against an Orangeman's procession, or a be-wildered magistrate forgets his duty toward hem, the public good requires their continuance. If the Orangemen of New York fail which lies at the foundation of modern civili action. They do not now represent a spent fact in history, but a living principle. It is not the battle of the Boyne in Ireland, but the

question of liberty in New York. Memory presides over the past. Fell's Coffee over the present.
